**e-Informatica** Software Engineering Journal (ISEJ) is an international journal that concerns theoretical and practical issues pertaining development of software systems, and focuses on experimentation in software engineering.

The purpose of the **e-Informatica** is to publish original and significant results in all areas of software engineering research. The scope of **e-Informatica** Software Engineering Journal includes methodologies, practices, architectures, technologies and tools used in processes along the software development lifecycle, but particular stress is laid on empirical evaluation.

Topics of interest include, but are not restricted to:

- Software requirements engineering and modeling
- Software architectures and design
- Software components and reuse
- Software testing, analysis and verification
- Agile software development methodologies and practices
- Model driven development
- Software quality
- Software measurement and metrics
- Reverse engineering and software maintenance
- Empirical and experimental studies in software engineering
- Evidence based software engineering
- Systematic reviews
- Object-oriented software development
- Aspect-oriented software development
- Software tools, containers, frameworks and development environments
- Formal methods in Software Engineering.
- Internet software systems development
- Dependability of software systems
- Human-computer interface
- AI and knowledge based software engineering
- Project management
- Software products and process improvement
- Process maturity models

The submissions will be accepted for publication on the base of positive reviews done by international program committee. English is the only accepted publication language.

Papers must be submitted in the form of a PDF file through the paper submission system (<http://submission.e-informatyka.pl/e-Informatica>). The camera ready version of the paper should be prepared using e-Informatyka LaTeX class (see detailed instructions for authors <http://madeyski.e-informatyka.pl/download/e-Informatica/AuthorGuide.zip>) and sent (with high quality, black&white graphics in PDF and EPS format) to Coordinator of Journal Publications (Piotr Przybył [e-informatica@e-informatyka.pl](mailto:e-informatica@e-informatyka.pl)).

Please note that only those papers will be considered for review, which do not exceed 20 pages and adhere to the layout instructions. Papers must not have been previously published or submitted elsewhere.

**Policy on Original Publication is available on e-Informatica web site (<http://www.e-informatyka.pl/journal/e-Informatica>).**
