

Zwinne metodyki wytwarzania oprogramowania

Marek Majchrzak, Andrzej Bednarz

Wrocław, 11.10.2011

Software Integration

Who is **Marek Majchrzak**?

Senior Software Developer

J2EE

JSE

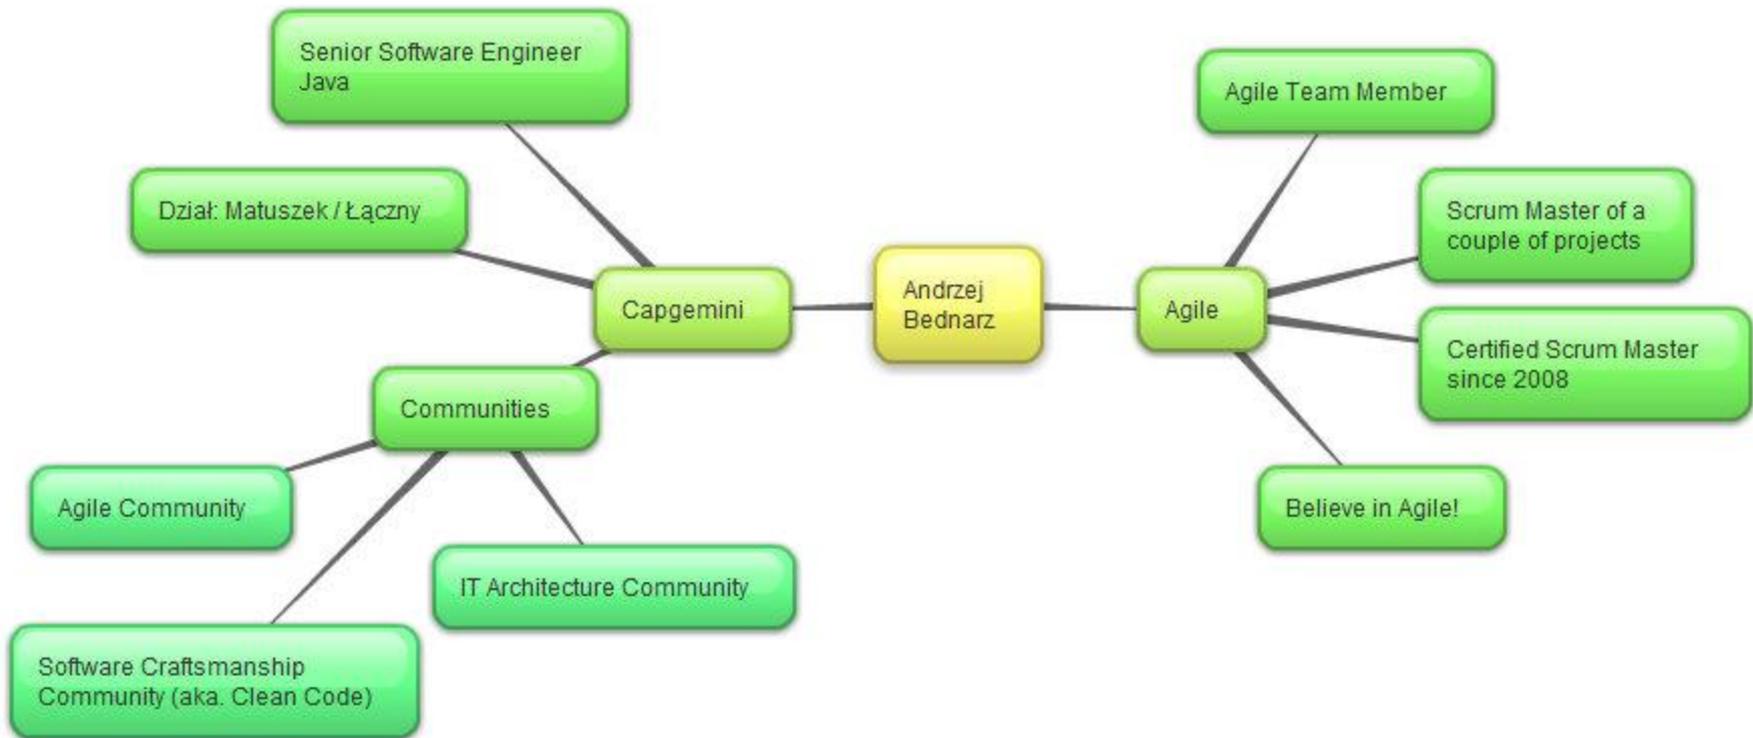

Agile Community

TCD AGIS

Architecture Community

Web Frameworks

☺ WARNING

- I'm spectacularly blunt at times
- Many new ideas will be presented (maybe not so new ☺)
- Some may not fit well into your existing environment
- Some will challenge your existing notions about software development
- Some will confirm your unvoiced suspicions
- Don't make any "career-ending moves"
- Be skeptical but open minded

Introduction

- ***Expectations ?***
- ***Experience?***

Goal

„The ultimate goal of this course is to provide you with the possibility to get grip on essential agile principles which are applicable to any process and to let you practice them by many exercises.”

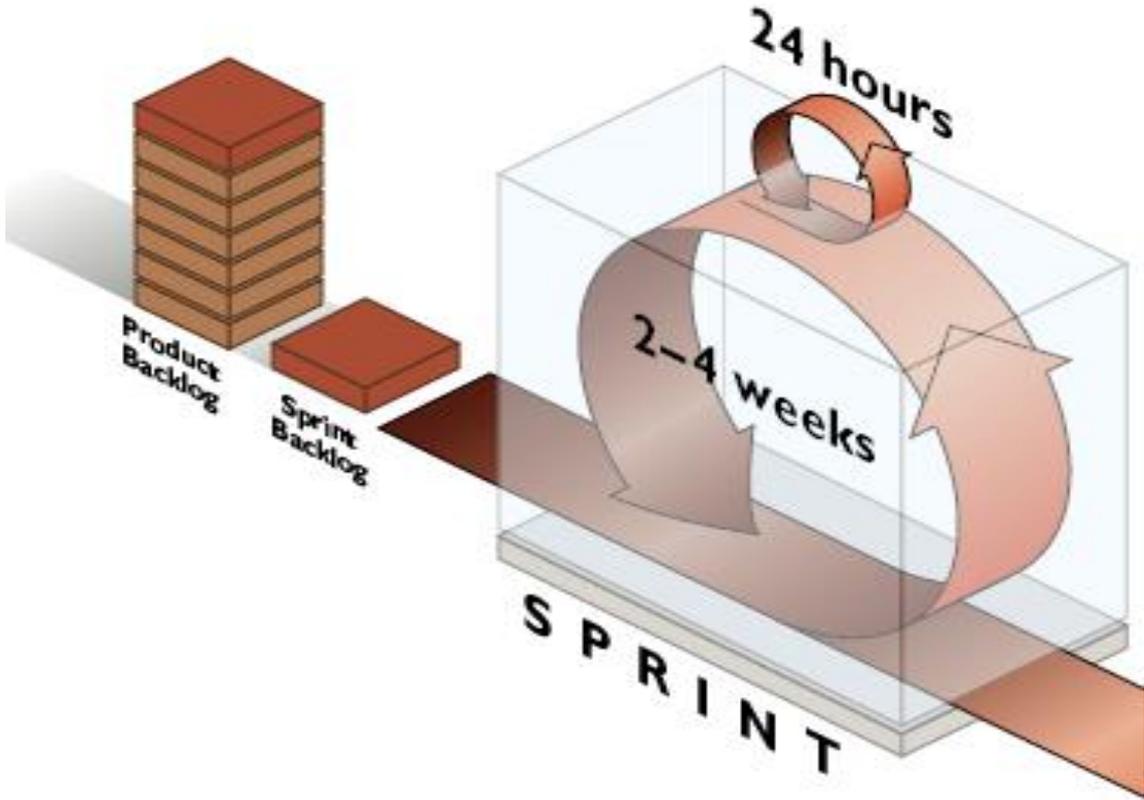

This is a workshop, you work, we talk...

Introduction

What are the assumptions about your knowledge?

Introduction

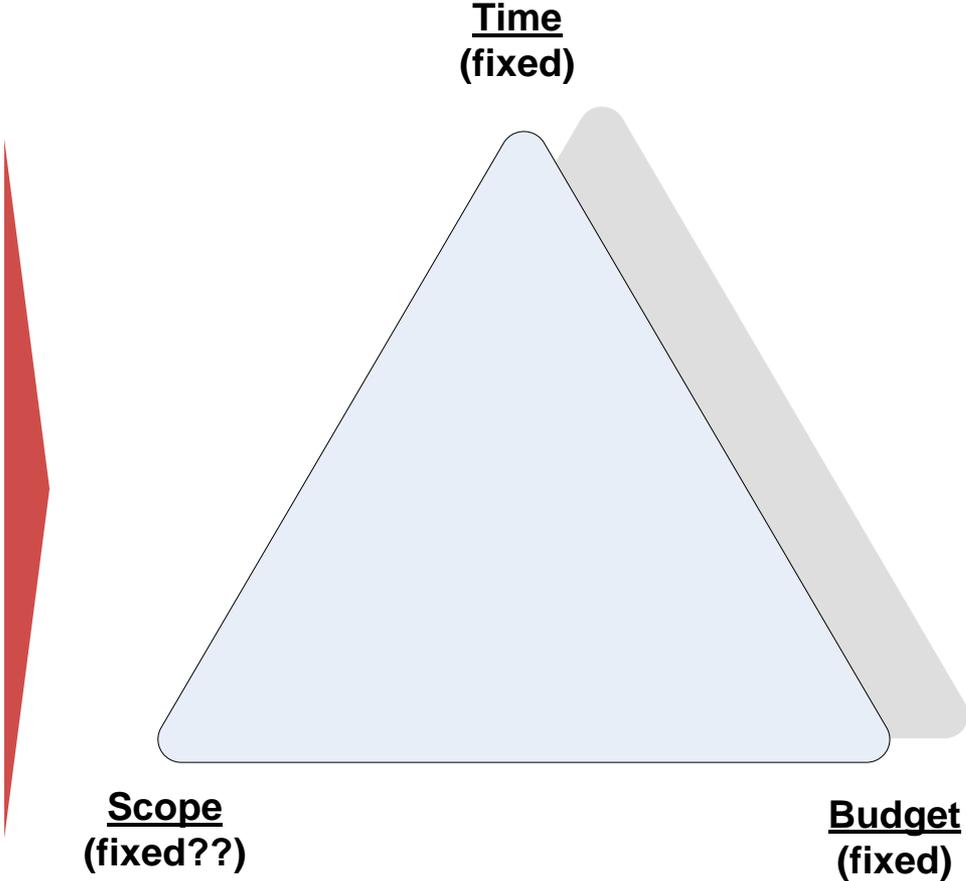

PROJECT GOALS DEFINITION

Project description

Project characteristic

- Fixed contracts – „agile presentation”
- defined time and deadline
- fixed price

Thank you very much for your attention!
